

EDDM[®]

It's Included!

AccuZIP6 features a Simplified Address Generator so you can create EDDM mailings.

- Mail to every house or address in a carrier route
- Qualified EDDM mailings can claim additional postage discounts
- Increase coverage and lower postage costs with saturation rates
- Combine many ZIP[™] Codes or ZIP Code[™] ranges into a single list

Key Benefits

- No longer waste countless hours and resources finding your target area
- Process both EDDM retail and commercial presorts with DDU entry
- Eliminate the need to manually create facing slips
- AccuZIP6 generates all of the required USPS[®] documentation and container tags for EDDM mailings. Automatically build EDDM lists directly within the AccuZIP6 software for EDDM or simplified address mailings
- AccuZIP6's powerful Command feature weeds out unwanted routes and ZIP Codes in large EDDM lists without the need to search for the routes you want

To learn more about the benefits of using EDDM lists visit accuzip.com/products/eddm
